DESCRIPTION

This two day comprehensive course will develop students as agency instructors in the use of diversionary devices. It is only open to tactical team personnel designated by their agency as diversionary device instructors. Topics of instruction include history & physics of diversionary devices, types of devices, general characteristics, effects on the human body, pre-deployment concerns, criteria for use, proper deployment techniques, tactical considerations, liability concerns, rendering safe, reloading, documentation, instructional techniques and other related topics. Students will be required to prepare a short lesson plan and demonstrate the ability to instruct others within a classroom setting. Students will also have to pass a written test as well as demonstrate proficiency with their agency's approved diversionary devices.

LEAD INSTRUCTOR

R. K. Miller, Huntington Beach, (CA) Police Dept. 30 years law enforcement experience and over 17 years of tactical assignments including SWAT Team Leader.

REQUIRED EQUIPMENT

Nomex, leather (or similar heavy duty material) gloves, body armor/tactical vest with diversionary device pouches, ballistic helmet (preferably with face shield), duty boots, five (5) diversionary devices per student, hearing protection, wrap-around eye protection, note taking material. Nomex flight suits (or other similar clothing) are suggested.

NTC course certifications do not have a specific time limit. Students are encouraged to maintain their skills and knowledge. To help accomplish this, it is N.T.C.'s policy that past students in good standing be allowed to attend future NTC courses in the same discipline at no additional cost.
